

Southern California HEAL Spring 2018 Network Leaders Learning Circle

Wednesday, April 25, 2018
Westin Pasadena

Learn about and celebrate the successes that have come from strong partnerships.

Identify peer learning opportunities for partners at Learning Community gallery walk.

Prepare for sustainability discussions with HEAL coalition partners.

Agenda

12:30 – 1:00 pm

Welcome, Introductions and Framing

1:00 – 2:00 pm

Celebrating Successes from Strong Partnerships

2:15 – 3:15 pm

First Look of Partners Gallery Walk

3:30 – 4:45

Sustainability Planning for Healthy Communities

4:45 – 5:00

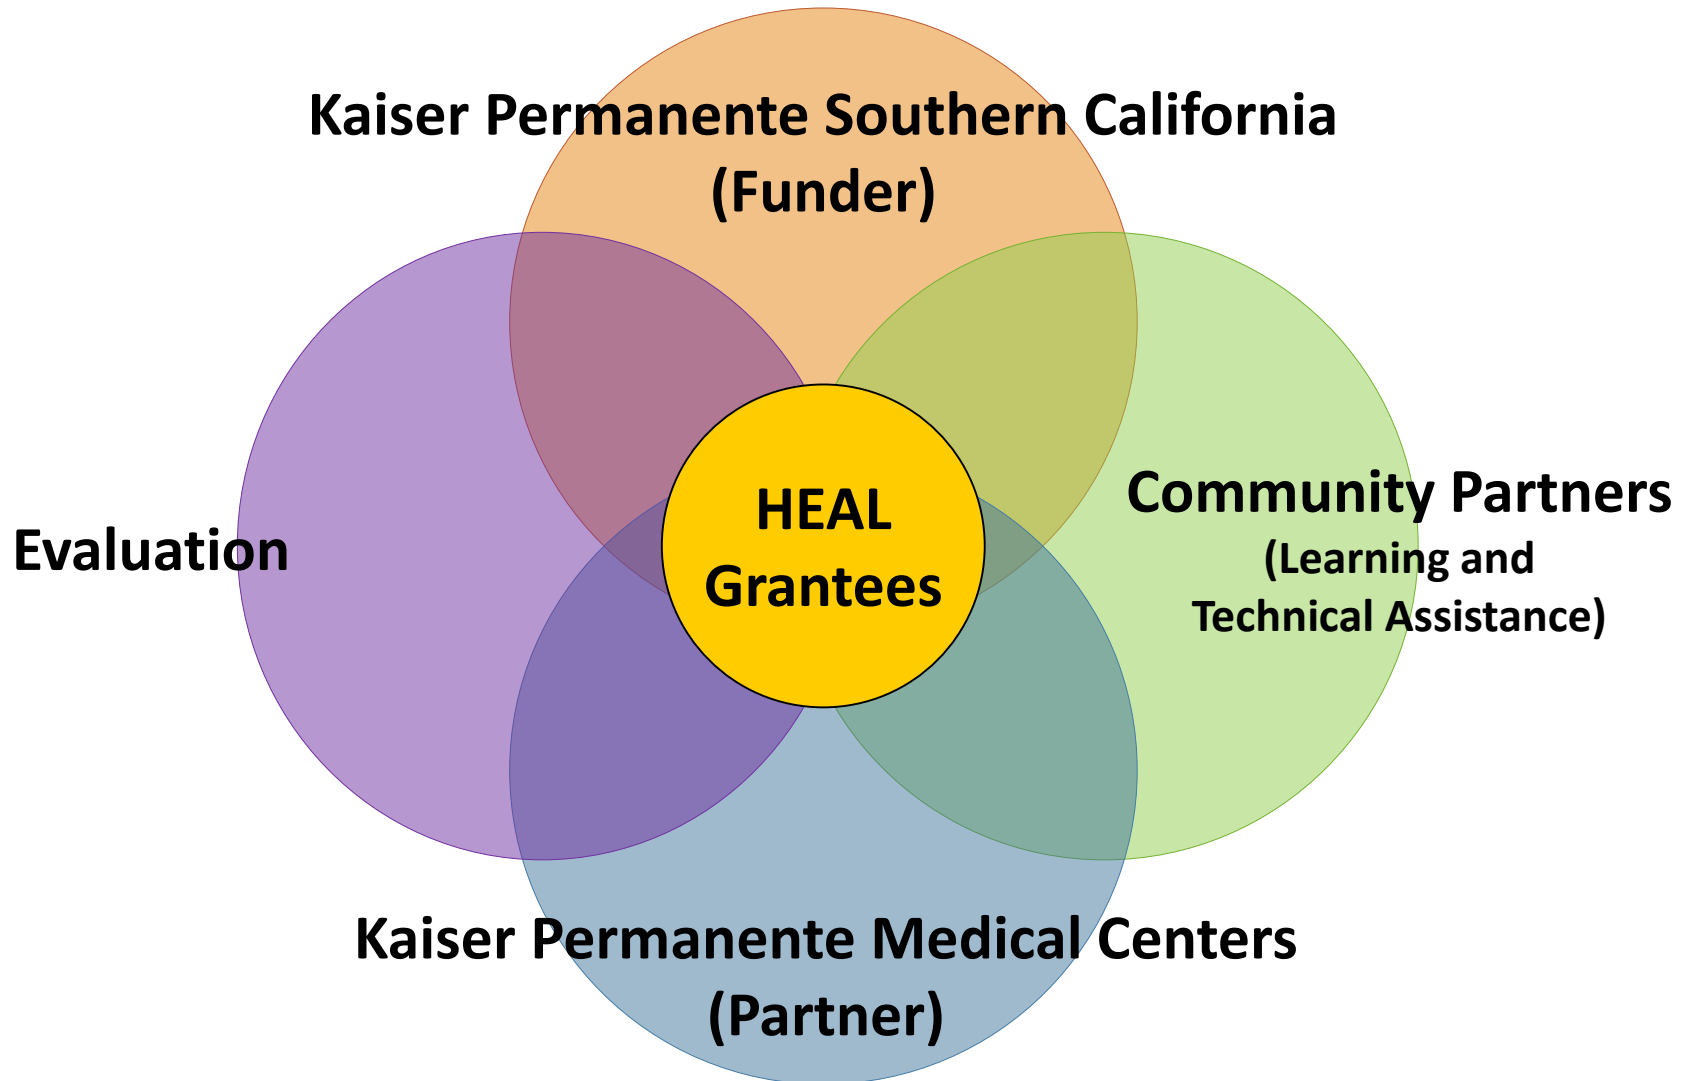

Closing Reflections

6:00 – 7:30 pm

Networking Reception

Health & Human Services

BREAK TIME

GALLERY WALK

Partner Accomplishments: Gallery Walk

Instructions at NLLC

Round 1 (15 minutes)

View the seven “illustrated maps” highlighting major partner accomplishments.

Write comments or questions on the post-it notes at each poster.

Round 2 (15 minutes)

Participate in large group reflection and Q & A session.

What are your reflections from your HEAL community “illustrated map”?

What stood out from other HEAL community “illustrated maps”?

Partner Accomplishments: Gallery Walk

Instructions at LC

Round 1 (20 minutes)

View the seven “illustrated maps” highlighting major partner accomplishments.

Write comments or questions on the post-it notes at each poster.

Round 2 (20 minutes)

Select a poster that interested you the most and join that group discussion.

Learn about the “success factors” leading to those accomplishments.

Round 3 (20 minutes)

Rejoin your site and reflect on how to apply lessons learned in your community.

BREAK TIME

Project Manager

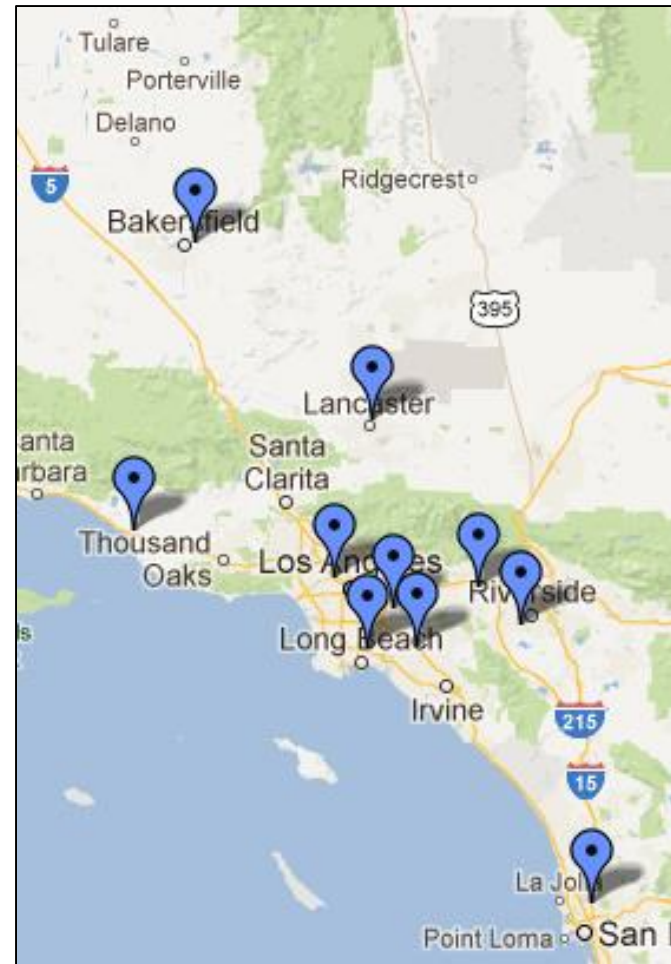

Southern California Kaiser Permanente
Community Benefit

Sustainability Planning for Healthy Communities

Has your agency and collaborative partners started discussions on how to sustain the HEAL work in your community?

If so, please share what steps you've taken and any plans that have emerged.

If not, please share your proposed timeline for sustainability planning.

Sustainability Planning for Healthy Communities

The Sustainability Planning Guide is a synthesis of science- and practice-based evidence designed to help coalitions, public health professionals, and other community stakeholders develop, implement, and evaluate a successful sustainability plan. The Guide provides a process for sustaining policy strategies and related activities, introduces various approaches to sustainability, and demonstrates sustainability planning in action with real-life examples.

10 Steps for Sustaining Coalition Efforts

1. Create a shared understanding of sustainability
2. Create a plan to work through the process
3. Position coalition efforts to increase the odds of sustainability
4. **Look at the current picture and pending items**
5. **Develop criteria to help determine which efforts to continue**
6. **Decide what to continue and prioritize**
7. **Create options for maintaining your priority efforts**
8. Develop a sustainability plan
9. Implement the sustainability plan
10. Evaluate outcomes and revise as needed

What is Sustainability?

What is the definition of sustainability?

- **Continuation** of community health or quality-of-life benefits over time.
- Effective community changes **remain in place** and **continues to evolve** over time.
- Core principles **continue to be supported** and **advanced**.
- **Advance** and **maintain** effective strategies.

What are the categories of activities that may be sustained?

- Policy, Systems and Environmental Changes
- Programs and Services
- Formal Partnerships
- Community Capacities and Resolve
- Relationships Between People and Organizations

What are the outcomes of sustainability?

- Progress towards long-term **health and equity goals and outcomes**.
- **Improve health and quality** of life for all.
- Continue to drive social action to **improve health**.

Three Definitions of Sustainability

“Evaluating the Legacy of Community Health Initiatives”

American Journal of Evaluation (2005)

Sustainability can be broadly defined as the continuation of community health or quality-of-life benefits over time. Within this broad definition, there are a number of specific categories of activities that may be sustained. That is there are multiple dimensions of sustainability, including programs and services; formal partnerships; policies; systems changes; environmental changes; and other community capacities.

“Community Health Initiatives Sustainability Framework”

Kaiser Permanente Community Benefit (2009)

Effective community changes remain in place and continue to evolve to promote progress towards long-term health and equity goals. The relationships between people and organizations created or reinforced by our initiatives continue to drive social action to improve health. This focus on sustaining the work and relationships is distinct from sustaining particular collaborative structures or other grant-funded entities per se. Core principles continue to be supported and advanced.

“A Sustainability Planning Guide for Healthy Communities”

CDC Division of Community Health (2011)

A community’s ongoing capacity and resolve to work together to establish, advance, and maintain effective strategies that continuously improve health and quality of life for all.

What is Sustainability in HEAL Initiative?

“Community Health Initiatives Sustainability Framework” Kaiser Permanente Community Benefit (2009)

Effective community changes remain in place and continue to evolve in the HEAL community to promote progress towards long-term health and equity goals.

The relationships between people and organizations created or reinforced by the HEAL initiative continue to drive social action to improve health.

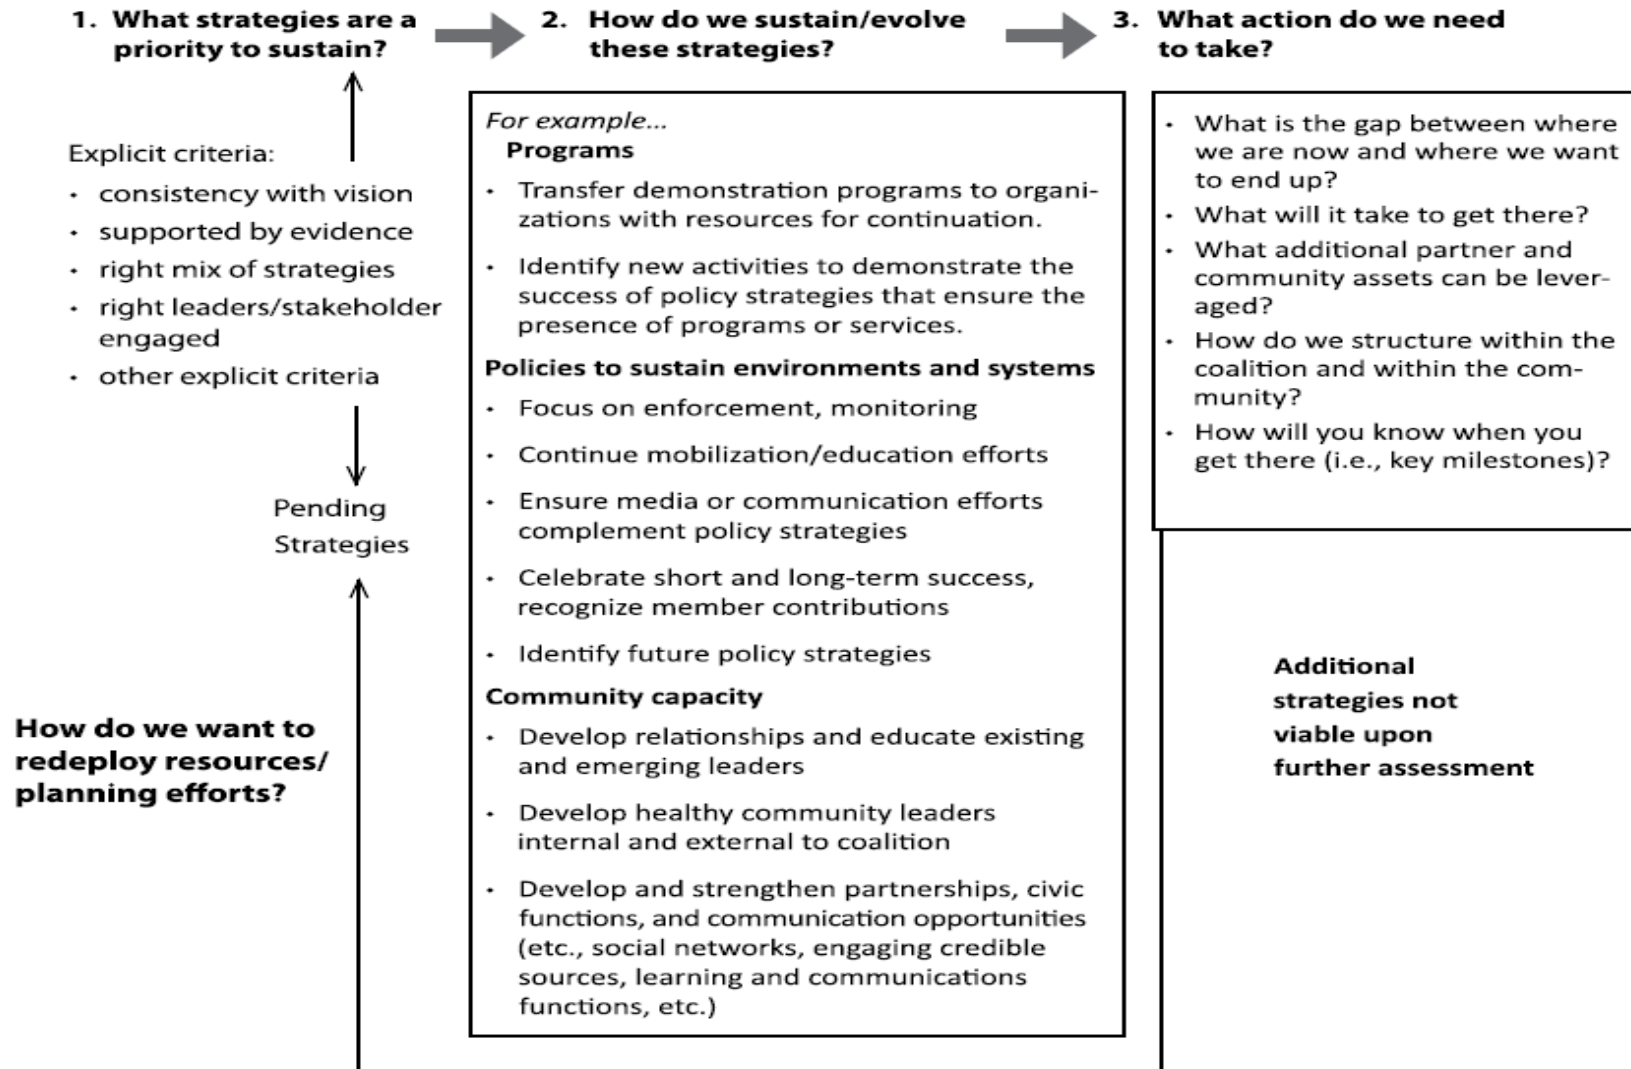

10 Steps for Sustaining Coalition Efforts

1. Create a shared understanding of sustainability
2. Create a plan to work through the process
3. Position coalition efforts to increase the odds of sustainability
4. **Look at the current picture and pending items**
5. **Develop criteria to help determine which efforts to continue**
6. **Decide what to continue and prioritize**
7. **Create options for maintaining your priority efforts**
8. Develop a sustainability plan
9. Implement the sustainability plan
