1 hour 30 min

#### **Diving Into the Future: *The Waters of Systems Change***

Judy Harper, Community Partners

“Systems change” was a key and very ambitious goal of the HEAL initiative. We now understand how strategies aimed at “systems change” may be constrained by a wide range of variables, including government policies, societal norms and goals, market forces, incentives, power imbalances, knowledge gaps, embedded social narratives, and more. Our discussion of the *Waters* will empower sites to identify new and creative strategies for future systems change work.

**11:45 am – 12:15 pm**

30 min

#### **Lunch**

**12:15 – 1:45 pm**

1 hour 30 min

#### **Data Dive for Sustainability Planning**

Laura Keene and Michelle Molina, CCHE

CCHE will present the most updated community transformation, coalition, partner and resident involvement evaluation data. Participants will review site-level and cross-site findings and discuss implications for sustainability planning.

**1:45 – 2:00 pm**

15 min

#### **Break**

**2:00 – 2:45 pm**

45 min

#### **Funding, Funding, Funding!**

Arpiné Shakhbandaryan, Community Partners

How will we fund our priority and new strategies for *Healthy Eating and Active Living*? We will review potential funding sources and discuss factors for funding success.

**2:45 – 3:00 pm**

15 min

#### **Reflections and Next Steps**

Everyone!
