HEAL Summer 2018 Network Leaders Learning Circle
Wednesday, September 5, 2018 | California Endowment | 10:00 am – 3:00 pm

Sustaining HEAL Strategies and Systems Change

OBJECTIVES

- Understand and develop new strategies that address constraints on systems change.
- Utilize community transformation and coalition evaluation data for sustainability planning.
- Identify potential funders to sustain the HEAL work in a post-Kaiser Permanente funding environment.

Homework: Read and reflect on: The Waters of Systems Change

AGENDA

10:00 – 10:15 am
Welcome, Icebreaker and Framing
15 min
Judy Harper, Community Partners

10:15 – 11:45 am
Diving Into the Future: The Waters of Systems Change
1 hour 30 min
Judy Harper, Community Partners

“Systems change” was a key and very ambitious goal of the HEAL initiative. We now understand how strategies aimed at “systems change” may be constrained by a wide range of variables, including government policies, societal norms and goals, market forces, incentives, power imbalances, knowledge gaps, embedded social narratives, and more. Our discussion of the Waters will empower sites to identify new and creative strategies for future systems change work.

11:45 am – 12:15 pm
Lunch
30 min

12:15 – 1:45 pm
Data Dive for Sustainability Planning
1 hour 30 min
Laura Keene and Michelle Molina, CCHE

CCHE will present the most updated community transformation, coalition, partner and resident involvement evaluation data. Participants will review site-level and cross-site findings and discuss implications for sustainability planning.

1:45 – 2:00 pm
Break
15 min

2:00 – 2:45 pm
Funding, Funding, Funding!
45 min
Arpiné Shakhbandaryan, Community Partners

How will we fund our priority and new strategies for Healthy Eating and Active Living? We will review potential funding sources and discuss factors for funding success.

2:45 – 3:00 pm
Reflections and Next Steps
15 min
Everyone!
