Youth Leadership and Advocacy: Linking Youth Action to HEAL CAP Strategies
February 28, 2013

Registration

Southern California HEAL Zone communities are engaging youth to implement healthy eating and active living strategies in their communities. Our discussion this month will focus on how to engage youth and develop their skills in advocacy and leadership. We encourage youth leaders, youth coordinators and mentors, after-school program staff (targeting junior high and high school students), and parks and recreation program staff targeting teens to participate and share their questions, challenges, and successes in working with youth.

The Virtual Brown Bag (VBB) is a monthly web convening aimed at generating discussion and peer learning by Southern California HEAL Zone grantees.
