Model: Using Data to Inform Program Improvement

- Identify data sources
  - Clarify outcomes
  - Partner data
  - Divide and concur

- Mine data
  - Summarize data
  - Identify themes and patterns
  - Confirm things you knew
  - Identify new information

- Implementing new plan
  - Set up measures to assess if new course is working
  - ACTION PLANNING
  - Identify immediate next steps

- Strategic thinking
  - Ask critical questions informed by data
  - Fatten the figures (get the full story)
  - Collective process

- Strategic planning
  - Action planning
  - Identify immediate next steps

DONE!
